Little things make big days

At Excel Foundation School, we make learning exciting and relevant to the times including purposeful and well-resourced indoor and outdoor areas of learning. We encourage children to lead their own learning and make choices. This empowers children and ensures learning and teaching is informed by their interests and big ideas. As a result, our children are fully engaged and motivated in every step of their learning. with learning processes based on the children's needs, interests, abilities, and social context.

Children learn through Play, Conversations, Storytelling, Toy-Based learning, Songs and Rhymes, Music and Movement, Arts and crafts, Indoor and Outdoor Games, Spending time in and with Nature, Field Trips, etc. Their homework is always a fun way of recalling the concepts and aims to provide diverse challenges to the students which also helps to connect the school with the child's home.

*"Learning is not attained by chance; it must be sought for with ardor and attended to with diligence"*

- Abigail Adams

# AREAS OF LEARNING

- ✔ Physical Development
- ✔ Personal, Socio-Emotional, and Ethical Development
- ✔ Cognitive Development
- ✔ Language and Literacy Development
- ✔ Aesthetic and Cultural Development

## Assessment & Reporting

There will be no formal tests or assessments for students of Kindergarten and Classes 1 & 2. Assessment will be done using various formative assessment techniques and tools. Reports shall be shared with the parents, twice in an academic year.

## Learning Stations

A change in the setting breaks the monotony and helps to learn concepts opening up a child's mind for meaningful learning. Children can move at their pace while teachers act as facilitators. They learn to work independently, which gives the child more control over what to do. Learning stations build creativity, responsibility, and decision-making skills.

## Goals of Assessment

Assessment is two-fold in nature. In order to meet the needs of all learners, the teacher may need to differentiate the instruction. Well-planned, regular, and skillful observations help teachers gather information about children's progress over time, which ensures that the child's needs are met.

A journey begins with one step

# EPS Foundation School Independence Day Celebrations 2022

## Creative Corner

Here, they can explore different art methods using clay, paints, crayons, and other craft materials available in nature helping students to think outside the box and flourish.

## Language Corner

contains resources and materials for children to learn to decode letter sounds, read words, and use spelling rules to develop listening, speaking, writing, and reading skills.

## Discovery Corner/ Science Lab

The lab aims to stimulate learner curiosity to explore answers. It helps build awareness around them, helping them connect to abstract concepts in science.

## Math Lab

Children learn to compare, sort, classify and differentiate various attributes. They develop number sense, estimation, pattern, measurement, and basic operational skills.

## Dollhouse

Dollhouses provide important educational benefits for intellectual and social development. Indulging in role-playing is a learning opportunity for the kids to understand life skills.

Children need models rather than critics

Creativity is a wild mind and a disciplined eye

## Dance

A form of exercise which works wonders for physical and emotional growth. They learn to control their body movement helping them develop spatial awareness and listening skills.

## Singing/ Music

Music helps to develop language skills and strengthens lip and tongue muscles. It promotes patience, and focus. Singing also demands recalling the lyrics and reciting the song.

## Yoga

Yoga aids in the holistic development of children. Yoga connects the body and mind and improves mental and physical health. It helps to improve memory and attention span.

## Library/ Reading Room

We want to instill a learning habit in our children. Our reading room is an essential room that provides books on different reading themes, encyclopedias, etc.

## Indoor and Outdoor Activities

Indoor activities are great for developing fine motor skills While learning becomes fun, indoor games encourage young learners to explore new ideas and concepts. Outdoor play is extremely important in developing a child's physical health.

Let us remember: One book, One Pen, One Teacher and One Student can change the world.

- Malala Yousufzai

Children are our most valuable resource

Believe you can and you're halfway there
