About Innovascope ?

Innovascope llp is a start up formed to provide multiple platforms for innovation to the education and business sector. In the iterative innovation process, users can learn and apply techniques to state a problem or opportunity and develop innovative solutions through our platforms and methodology.

Innovascope is the epitome of the innovation landscape. it is a melting pot of all the processes, practices, people, passion and perspectives needed to not just succeed, but thrive in an ever-evolving, ever-dynamic world.

innovation is not akin to the lighting of a matchstick in the mind. It is a slow and structured process; an exploration deep into the ocean of the mind to find a shiny little goldfish that can be nurtured to grow the size of a whale that can change the world.
